

The Tara Townhouses - Plan E

Expansive elegance best describes this larger design for townhouse living. Several feet wider than any other design offered at Tara, this plan takes full advantage of the additional space to offer a gorgeous and huge living room, a deluxe and rambling master bedroom with fireplace and numerous other features not possible in any other floor plan. Even the kitchen gains added measure—including more counters, more cabinets and a breakfast table area. The family room measures 14 x 24 feet and also has an adjacent full bath. All together, the three levels have 3½ baths! Storage galore, living room fireplace, a flowing curved stairway—and on and on. But need we say more?

The Tara Townhouses are winner of the VIP Home Award for outstanding value, imagination and planning.
